

OUTDOOR CLASSROOM SOLUTIONS

Agile classrooms and spaces that flex and adapt to meet changing needs

Classrooms with a growth mindset can expand education beyond four walls. Placemaking in existing, usable outdoor space is an opportunity to create an open-air classroom concept without reducing student enrollment due to social distancing efforts and limited indoor space.

- ✓ Encourages safe group-based collaborative learning
- ✓ Socially distanced table floorplan
- ✓ Protective tabletop sneeze guards
- ✓ Stimulates social and emotional learning
- ✓ Versatile usability for learning, dining, assemblies, playing, and more
- ✓ Optional lighting, audio, video, and other electrical integrations
- ✓ ADA accessible seating areas and pathways
- ✓ Quality shade structures designed for UV, heat, and weather protection

We support health and safety changes for schools wanting to protect students, faculty, and staff from the spread of illnesses.

Economical and Scalable Seating

Gathering tables are the perfect seating solution to optimize school outdoor spaces.

Each table style has in-ground, portable, or surface-mount mounting options and comes in a variety of plastisol or powder coat colors.

Removeable tabletop divider systems can be added to enhance collaborative learning environments and social engagement while protecting against the spread of germs between students in close proximity.
